Classic II Steel Bodies

Would you like to become a Reading Distributor?

Reading's Classic II Steel Service Bodies are constructed from the highest quality A40-A60 coating weight steel to assure the very best corrosion protection for the long haul. Each Classic II Steel Service Body comes with a 6 year limited warranty. The Classic II Steel Service Body, available for both single rear wheel and dual rear cutaway vans, offers features not found on any other service body. A few of these features include an exclusive, patented, secure internal compartment hinge that is easy to replace without special tools and is fully adjustable. Other features include A40-A60 coating weight steel pressed diamond plate floor, and state of the art E-Coat priming system and durable Powder Coat finish.
